offerings and Sales at the Richmond Tobacco Exchange-Internal Revenue Collections Foreign Advices.

NEW YORK, Nov. 7.—In the early trading at the Stock Exchange to-day there was a general decide in prices of \$\(\)_10 to \$\(\)_10 per cent. due to an advance in posted rates of sterling exchange to issue and \$\(\)_20 per cent. due to an advance in posted rates of sterling exchange to issue, and \$\(\)_20 per cent. due to an advance in posted rates of sterling exchange to issue, led to the usual discussion about gold exports but up to the close of ousiness no arrangements had been made for the shipment of the metal. London was a sedier of stocks at this time, especially \$\(\)_21 Paul and Northern Pacific preferred. The last-named sold as low as \$15\times, and the reports of a heavy assessment were revived. Later on advices were received from European financial centres to the effect that the situation was improving abroad, and this led to a raily here. A recovery, however, has been long overdue, and the traders simply made this favorable news the pretext for a surn against the shorts, and as the market is heavily oversold, they had little difficulty in forcing some of the amaler, bears to covering. The buying movement gained force as the day advanced, and about 2 oclock the active stocks showed gains of \$\(\)_31\(\)_4 per cent. Leather preferred. Lake Shore, the Grangers, Western Union, General Electric, To-bacc, the Southwesterns, Anthracite Coalers, and Tonnessee Coal and Iron were all prominent in the rise. Chicago Gas was depressed \$2\(\) to \$\(\)_40\(\)_40 and the latter to \$\(\)_50\(\). The deposits of Fidelity Trust Receipts with the Central Trust Company now amount to \$\(\)_52\(\)_52\(\)_50\(\). Near the close liquidations were resumed in the cases of Leather preferred and Sugar, the former falling to \$\(\)_63\(\) and tradited to \$\(\)_41\(\)_50\(\) in the last sale before the day was depressed \$2\(\)_50\(\)_64\(\) and relified to \$4\(\)_4. Minneapolis and \$\(\)_51\(\)_50\(\)_60 and rallied to \$4\(\)_4. Minneapolis and \$\(\)_51\(\)_50\(\)_60 and rallied to \$\(\)_51\(\)_50\(

won the victory, which was not what might be termed an important one. Trading indicated nothing particularly encouraging or discouraging in the situation, and outside speculation was noticeably absent. New York wired that foreigners were seiling in their market, and seaboard orders received here were in the same line. Changing from December to May has begun, but as yet has not assumed large proportions. December wheat opened from 58%c. to 58%f 58%c., sold between 58%g 58%c. and 58%c. clossing at the latter, %c. under yesterday. Cash wheat was steady.

Corn—One-sixteenth of a cent was the extent of the range in corn. It is therefore plainly superflows to explain the variations in prices. The feeling, however, was very strong, sticking to the considerations affecting it, being an unusually good cash demand and the wetweather. The latter has a tendency to restrict the interior movement temporarily, but inamuch as the supplies cannot, at best, suffer, only retard it is rather a remote buil argdiment. May corn opened at 29%c., sold at 29%22%c., closing at the opening price, a shade over yesterday. Cash corn was firm and 4c. higher.

Outs—Unless familiar with Board of Trade precincts, it will be difficult to find the place where this market was located to-day. There were occasions when not a single trader was in the plat, and when a few appeared, it was to indulge in conversation and merriment rather than to transact business. Scarcely a dozen trades were made all day. The feeling was nominally steady and closed unchanged from yesterday. Cash oats were 4c, higher for No. 2 white and steady for other grades.

Provisions—inside quotations on provisions ruled at the close, although quite the reverse was the case at the opening. The influence was from the yards, where higher prices prevailed early and lower ones later. Trading in product presented no new features and was very duil. January pork closed 12½c, lower, January lard ones we features and was very duil. January pork closed 12½c, lower, January lard ones. Wheat—O

THE IRON MARKET.

rhe Iron Market.

CLEVELAND, G., Nov. 7.—The Iron Trade Review says to-day.
Further declines in Bessemer pig and steel billets have taken place in the week, though the volume of business is so small that prices are less significant than the fact that the world is drawing itself outward to a time of always marked by quietness. Blast furnaces and steel companies show no disposition to follow the market to the level to which speculative transactions have brought it. The cutting of prices by producers is in nearly all cases traced to furnaces or mills that got into operation after the boom had reached its height. The policy of the leading interests that have been pushed with orders for six months seems to be to let smaller producers that are disposed to shade prices fill up with business. The problem that then remains is whether there will come uporders enough to stiffen prices again for those who have held off. Bessemer pig has ranged from \$14.75 in the Valley down to \$14.00. Speculative steel is stiff dominating the billet market, and with little buying the price has gone below \$20. Pittsburg and transactions in the Wheeling district have shaded \$19.50. Car buying has helped bar mills and forges, and axle makers have not been so busy in two, years. Ore producers cannot name price for 1806, though it is agreed that the basis will be above that of early '06. The price of Connellsville coke higher, and Iron ore certain to go above the opening price of 1832, where are substantial reasons for expecting a continuance of to-day's prices in finished material. The arguments to the continuance of to-day's prices in finished rather than inside the iron trade.

Messrs. James W. Allison and A. D. Landerkin, of Richmond, are examining the advantages of Wimington for a site for a manufacturing enterprise.

The Ruilroad Commission will look into the matter of the Roanoke Railroad and Lumber Company, and see why they should not come under the law governing common carriers. Mr. Otho Wilson thinks he can prove they are acting as such. The sale of the Yates property at Cary to the Cary Lumber Company, a short time ago, was yesterday confirmed by the court. This is the property the State Alliance expected to get for their stove factory. The executive committee has not yet settled upon a place. It still hangs between Cary and Thomasville.

In the Superior Court yesterday two divorces were granted.

The revenue receipts were \$124.28.12 for the Raileigh office during the last month. The new missionary district in North Carolina, which was formed at the Episcopal Convention in Minneapoils during its recent seasion, will comprise the western part of the State. This will be under the care of the Church at large, and will therefore not affect Bishop Cheshire, except to reduce his territory. The House of Rishops will appoint the bishop for that field, and the chances are that the mantie will fall upon Rey. Dr. Murdock, of Salisbury.

The records of the North Carolina De-

field, and the chances are that the mantic will fall upon Rev. Dr. Murdock, of Salisbury.

The records of the North Carolina Department of Agriculture for the fiscal year 18%, which will close the end of this month, show that eighty-live fertilizer companies did business in this State during this year. Five hundred and forty-two different and distinct brands of fertilizers were registered also during the fiscal year now closing. The irregularities of manufacturers are growing less and less every year. The North Carolina fertilizer laws, while right, protect the manufacturer as well as the farmer, and are being adopted by many States, either in whole or bart.

The bidding at the horse sale yesterday was far from spirited. There was quite a good attendance, many ladies being there. The horses brought low prices, ranging from \$5 to \$140. The sale will probably be better to-day.

Trade in all lines of goods is splendid here. There is all the difference in the world in the state of affairs, as far as trade goes, between this year and last year.

The case before the Superior Court, in the compromise suit between Chamber-sian, president of the Caraleigh Phosphate Company, and Mr. Powell for selling bags of fertilizer to the latter that were not properly tagged was decided in favor of Mr. Chamberlain.

In winding up the suit of the late Dr. W. J. Hawkins under decision of the compromise the willow, in consideration of a payment of \$50,000, waives all other telaims. Under the will provisions she would have received about \$30,000.

The Agricultural Department is sending out hand-books in reply to inquiries from so many people regarding the State, its industries, and products.

TORONTO, Nov. 5.-Up here the foot

Rugby foot-ball in England calls for fifteen men on a team. So it does in Canada, but the similarity ends there. Aross the water there are mine or ten men in the "scrimmage" or "scrum," two half backs, who correspond to our quarter back; three or four three-quarter backs, whose duties are akin to those of an American half back, and a full back. When a runner is held with the ball, the leather is put down, the eighteen or twenty forwards "pack" an aniwieldly scrimmage, and the stronger side forces the other forwards down the field. Should the ball chance to come out, one of the half backs, who have been hovering around the struggling mass of men, poinces on the pigskin and either runs with it or passes it to one of the three-quarters, who stand extended across the field, twenty-five or thirty feet to the rear of the scrimmage.

The game is productive of pretty running and kicking on the part of the three-quarter backs. Otherwise it is slow and uninteresting. Mest of the time the scrimmage men have no idea of the whereabouts of the ball. It is theirs to puff and push and perspire. The half backs and three-quarters took after the rest of the play. Often it happens that one of the backs has run half way down the field and scored a touchdown, or "try," as they call it, before the mass of men in the scrimmage is broken up.

The Canadians have changed all this. Seven years ago, at a meeting of the canadian Rughy l'inion, amoution to adopt the intercollegiate game was voted down by an overwhelmingly majority. The delegates almost unanimously agreed in condemning the American system of interference. By their code every man in front of the runner is off-side, and is only put on-side by dropping behind the man who has the ball. Wedges and interference are illegal and are considered to make the game slow and telious. Your young Canadian will tell you that his is the best game of foot-ball on earth. And this is how it is played: There are fifteen men on a side, for these conservative young canadian will tell you that his is

ed is punished by ruling the offender out and sometimes out of the championship series.

The best points of the game are the rapidity with which it is played, the dashing runs of the half backs, and the combnation work of the wings. Possession of the ball, such an object with our players, means little to the Canadians. The pigskin changes hands every half minute or so. The captain of the side that plays with a heavy wind at its back alv ays instructs his half backs to kick until they get within running distance of the goal. Once inside the enemy's twenty-five-yard line the attacking side's half backs stand twenty-five or thirty yards from the quarter back. Then comes a scrimmage, the ball is heeled out to the quarter back, who throws it with a round arm bowling motion to me of the outside half backs. The leather sails through the air very fast and with a very flat trajectory until it is grabbed by the half back. The recipient dashes up the field with his wings following him un, not in a bunch, but strung out across the green. The ball is passed from hand to hand with an accuracy that has been gained only by long practice. With sneedy wings well up in the passeng game the best tacklers have little chance of stopping the rush.

THE COLORED PAIR OPENED IN RALEIGH.

The Election on a Road Law Was Very Small and the Old Law Was Retained—Cotton Taking a Rest.

RALEIGH, N. C., Nov. 7.—Special.—The Colored Pair was formally opened by Secretary of State Cook and Auditor Furman. The Governor, who as a general thirty makes the opening address, was away.

The election on the adoption of the heav county road law was extremely quiet. The vote was the smallest ever polled here on any question, and the new law was consigned to oblivion. The old, systematic, and thorough system will be continued. Wake county will soon rival Mecklenburg county in splendidly macadamized roads.

Last year the North Carolina State Board of Health met in Salisbury. Their meetings were free to the public, and questions were allowed to be asked. This giving the people the benefit of their discussions was of great benefit, and it was goasses. On the other hand. Canada's customs and punts, and splendidly care that the Canadian game is faster and more interesting to the ordinary spectator than the American sport. There are many long runs, frequent big drops and punts, and splendidly executed long passes. On the other hand. Canada's customs was of great benefit, and it was passes. On the other hand. Canada's customs and punts, and splendidly executed long passes.

There are similar associations in New England, the Middle States, the West, etc.

The following institutions were represented: Vanderbilt University, University of North Carolina, Washington and Lee University, Georgia School of Technology, Wofford College, Trinity College, N. C.; Tulane University Mercer College, of Mississippi; University of Alahama, and the University of Tennessee.

The association adopted a constitution and by-laws based upon those of the Association, of the Middle States and Maryland. This constitution makes ineligible to membership colleges with preparatory departments and schools pretending to confer degrees. As a prerequisite to membership, colleges must enforce a minimum of requirement in their entrance requirements. Thus a line of demarkation is strictly drawn between those institutions which do strictly collegiate work, and those doing scademical work, and competing with academies and high schools. The association is to meet annually the first week in November, and its next session will be at Nashville, Tenn. Its officers for the first year are: President, George T. Winston, president of the University of North Carolina; Vice-President, Professor Palmer, of the University of Alahama; and Professor Carolan, of Washington and Lee University; Secretary and Treasurer, Chancellor J. H. Kirkland, of Vanderbilt University.

Resolutions expressing the association's sympathy with the work of the public schools were adopted, and these set forth, as the opinion of the association, that the interests on public education demand that four years of the study of Greek.

Opened and Everything Found Intact.

Moving to Other Quarters.

NEW YORK, Nov. 7.—The want of the Emptre State Bank, which was burned out on election night, was opened this morning and everything was found intact. The work was supervised by the president, James W. Conroy, and several of the directors. The vault runs from the first floor to the sub-cellar. In the lower compartment were old records and in the upper one the cash and currency books. Or cash and securities there were about \$1,000.00, \$35,000 of which was money. All the contents were transferred in satchels to the temporary quarters in the old Bleecker-street bank building, policemen being stationed along the route to provide protection.

The Manhattan Savings Bank officers, who were yesterday ordered out of their partly burned building, on the northeast corner, announced this morning that they had secured temporary offices in the old Greenwich Savings Bank building.

The money and securities to the amount of about \$800,000 in the vault of the Broadway building were taken there early this morning.

Judge Goff Overruled by a Lower Court
WHEELING, W. VA., Nov. 7.—In the
Criminal Court to-day, Judge Thomas
J. Humgus decided that the State law
taxing cigarette dealers was constitutional. He overruled demurrers to the
indictments against dealers in this city,
and practically favored the law, as it
stands. Trial was set for the 18th
instant. United States Judge Goff recently declared the law unconstitutional
